OPEN SESSION

The Board resumed open session at 1:35 p.m. Dr. Kyger noted that Dr. Armstrong had approved the agenda for the afternoon as presented with the notation that the Chair may modify the agenda due to timing constraints or extenuating circumstances.

REVIEW OF THE DECEMBER BOARD MEETING MINUTES

The Board reviewed the minutes of the December 3, 2008 Board meeting.

Motion by Ms. Naber, second by Dr. Kaye, to approve the December 3, 2008 Board meeting minutes as presented.

Motion carried unanimously.

ENFORCEMENT REPORT

PERSONAL APPEARANCE(S)

MARK DEVINCENZO, D.D.S.

Ms. Davis introduced Mark Devincenzo, D.D.S., who was appearing before the Board for his initial interview after reporting to Glenbeigh on October 20, 2008 for inpatient treatment for a "serious" opioid dependence. She stated that Dr. Devincenzo completed the inpatient treatment and was released November 17, 2008.

Ms. Davis stated that Dr. Devincenzo was investigated for allegedly writing prescriptions in other people's names and then obtaining the Vicoprofen for personal use. She informed the Board members that Dr. Devincenzo was using approximately eighteen (18) pills per day (10mg) at the time of the investigation. Ms. Davis stated that Drug Enforcement Agency detectives came to talk to Dr. Devincenzo's current employer, Monarch Dental, to interview him regarding the alleged prescription incident on a Thursday. She stated that Dr. Devincenzo had stated that he knew that his life and health were going downhill and subsequently reported to Glenbeigh on the following Monday. Ms. Davis said that Dr. Devincenzo has not been charged criminally and unsure if he will or not be charged.

Concluding, Ms. Davis reported that Dr. Devincenzo is attending aftercare at Bethesda Oak in Cincinnati and that they are also doing his monitoring. She stated that

Dr. Devincenzo is attending all meetings as required and has been compliant with all Board investigators.

Upon questioning by the Board, Dr. Devincenzo stated that he has been practicing dentistry since 1983 and has been with his current employer, Monarch Dental, for two (2) years. He stated that he recognizes that he has had a problem with addiction for a while but once confronted with the evidence he realized that he needed treatment but was unsure about how to go about getting it. Dr. Devincenzo stated that once he was confronted and the Board became aware of the issues there was no reason not to enter into treatment. He stated that since that time he has enrolled into a monitoring program. He stated that one of the recommendations that the treatment center had was for him to attend ninety (90) meetings in ninety (90) days of which he has approximately seventy-five (75) of the meetings completed. Additionally, Dr. Devincenzo stated that the program required obtaining a sponsor following completion of the Alcoholics Anonymous (AA) 12-step program.

When asked what perpetuated his dependence, Dr. Devincenzo stated that physical sciatica which allowed him to begin taking the prescription. However, he stated that it did not really help with the pain but it made living with the pain easier but it was short-lived. He stated that once the addiction took over it became a different ball game.

Board members questioned Dr. Devincenzo as to what he was currently taking for his pain. Dr. Devincenzo stated that he is taking ibuprofen but that he rests for the sciatica. He stated that in the past he had been treated with epidurals. However, he stated while the epidurals would make the pain go away for a while, when the pain flared up he did not want to take the time off to go through the process. He stated that he puts off that process now because it is not as prevalent a problem.

When questioned as to how the aftercare and caduceus program is working for him, Dr. Devincenzo stated that the aftercare was a group therapy wherein members discuss what they are going through and what they are dealing with such as guilt, shame, and how to put your life back together. He informed the Board that the caduceus meetings are similar in that it is a support system to make you realize that you are not alone in your recovery and that there are others around who understand and are able to support you. He stated that there is a sense of comfort just being there and being understood. Dr. Devincenzo continued by stating that when all of this happened he felt like he was the worst thing that ever walked the face of the earth, that this was a privilege, and that he had questioned himself on how he could have abused such a privilege. He stated that the caduceus helped him to understand that there are others in the same or similar situation in that the disease and the circumstance, with the support of others you are able to pick yourself back up and continue to move on.

Board members inquired as to how Dr. Devincenzo's staff was handling his situation and recovery. Dr. Devincenzo stated that his staff had been extremely supportive, that the company he works for has granted him family leave time, and that they understand the disease and process that requires going to treatment. He stated that he is working with the same company and that all agree that they hope to see him back working as soon as possible.

When asked what Dr. Devincenzo's plans were once he completed the recommended ninety (90) meetings in ninety (90) days, Dr. Devincenzo stated that he could not see any need to change his schedule because the meetings are at 7:00 to 8:00 in the evenings and they would not interfere with his work schedule. He stated that he felt he could continue the meetings along with working during the day since he was only scheduled to work until 6:00 pm in the past.

Recognizing that there were no more questions from Board members, Dr. Kyger informed Dr. Devincenzo that the Board supports his efforts in recovery, encourages him to keep meeting with his support groups, and complying with the terms of his consent agreement with the Board. She then informed Dr. Devincenzo that the Board would like for him to appear again for a follow-up interview at the February 18, 2009 meeting.

STEPHEN P. GILMORE, D.D.S.

Ms. Davis introduced Stephen P. Gilmore, D.D.S., who was appearing before the Board for a second interview after appearing for his initial interview in September, 2007. She stated that shortly after Dr. Gilmore's initial appearance he relapsed and continued to have several additional relapses until April, 2008. Ms. Davis informed the Board members that Dr. Gilmore reported April 30, 2008 as his sobriety date. Ms. Davis informed the Board that Dr. Gilmore had reported to Talbott Recovery in November, 2008 for an assessment in order to determine their recommendations.

Continuing on, Ms. Davis stated that Dr. Gilmore completed treatment at Shepherd Hill in 2000 and was reaching his six (6) year mark when he relapsed and went back to Shepherd Hill at the end of 2006. She stated that Dr. Gilmore admits that when he went into treatment in 2006 he stated that he was just "there", and was not ready to quit drinking. Ms. Davis said that upon his release in February, 2007 he once again began drinking shortly thereafter. She informed the Board that Dr. Gilmore began reaching out for support and help in his Caduceus group and after an "intervention" in early May, he reported to Talbott Recovery. She stated that he was admitted to Talbott in May, 2007, where he spent the next 3 months in inpatient treatment. She stated that Dr. Gilmore admits in his assessment with Talbott that he is a chronic relapsing alcoholic.

Ms. Davis informed the Board that Dr. Gilmore was released and initially did well with his recovery. However, she stated that when he appeared for his initial interview with the Board at its September, 2007 Board meeting, Dr. Gilmore relapsed approximately 2 weeks after that interview and reported back to Talbott. Ms. Davis informed the Board members that Dr. Gilmore had informed the Board at that time that Talbott did not require any additional inpatient treatment. However, Ms. Davis indicated that the Board later learned that this was a lie, that Talbott did recommend additional inpatient treatment; however, Dr. Gilmore had refused due to financial constraints. She stated that Dr. Gilmore later relapsed again and went into detoxification on October 28-31st, 2007 and November 19th-20th, 2007. Ms. Davis informed the Board that Dr. Gilmore yet again relapsed the week of April 13, 2008 and because he indicates that April 30, 2008 is his sobriety date.

Concluding, Ms. Davis stated that since May, 2008 Dr. Gilmore has reportedly been doing much better with his recovery. She indicated that he is attending several meetings and Enforcement Officer, Larry Powell, has reported that Dr. Gilmore looks better in these past months than he has ever seen him look. Ms. Davis stated that when she has talked to him, Dr. Gilmore has been much more cooperative, easier to speak with and not so combative when trying to explain things. She said that when he reported for his assessment in November at Talbott they immediately documented the change in his behavior and attitude. Ms. Davis reported that Talbott indicated that they believe he may finally be ready to return to work, however; they recommended that Dr. Gilmore only return part-time initially.

Upon questioning by the Board, Dr. Gilmore informed the Board that Ms. Davis had reported correctly that the number one reason for his most recent relapse was that he had “copped an attitude of resentment” when he was asked to appear at a subsequent meeting of the Board at the November 2007 interview. He admitted that he had relapsed at least three (3) times since then. Dr. Gilmore indicated that due to the nature of the most recent relapse he felt the need to admit himself to the hospital. He stated that at that time he “felt as if he was going to die” and so he surrendered himself to the recovery. He stated that he started down a different path to recovery and that was the important thing now.

Board members questioned Dr. Gilmore regarding some confusion over his attendance to meetings. Dr. Gilmore explained that at one point he had been informed that since the meetings were being recorded and subsequently reported to the Board that he did not have to sign in at every meeting. He stated that since becoming aware of the issue he has corrected the problem.

Further questions by Board members revealed that Dr. Gilmore felt better this time around. He stated that he admitted to a high potential for relapse in the past but believes that in the past he had not embraced the problem. He stated that he feels now

that it is more a spiritual process and that he is doing well working with others and using prayers. He stated that if he misses a group session he feels it.

Mr. Readler stated that it is common for the Board to have impairment interviewees back for a second interview. He asked Dr. Gilmore if he thought it fair to ask him back for a second interview at this time due to the fact that in November 2007 he relapsed due to the Board's request for a second interview. Dr. Gilmore stated that he could see where the Board members might feel the need for a subsequent interview, however, he had expected the interview to be in December rather than now in January. He stated that he felt that no interview in December was a test of sorts but that he feels ready to go back.

Ms. Staley mentioned that Talbott recommended that Dr. Gilmore only be permitted back to practice on a part-time basis. He stated that the plans that he has made with his fellow dentists are to return to work two (2) days per week. He stated that the other dentist involved is also in recovery and therefore, will help out in any way he can.

EXECUTIVE SESSION

Motion by Mr. Readler, second by Dr. Wallace, to move the Board into executive session pursuant to Ohio Revised Code Section 121.22(G)(1) to discuss the matter involving Dr. Stephen P. Gilmore, D.D.S.

Roll call vote: Dr. Desai – Yes
Dr. Hanners – Yes
Dr. Hills – Yes
Dr. Howard – Yes
Mr. Jones – Yes
Dr. Kaye – Yes
Dr. Kyger - Yes
Dr. Leffler – Yes
Ms. Naber - Yes
Mr. Readler – Yes
Ms. Staley - Yes
Dr. Wallace - Yes

Motion carried unanimously.

OPEN SESSION

The Board resumed open session at 2:14 p.m.

Dr. Kyger informed Dr. Gilmore that the Board had deliberated regarding reinstatement of Dr. Gilmore's license to practice dentistry. She stated that she wanted to make it clear that the Board is in full support of Dr. Gilmore making a full recovery and in that regard it is felt that this interview gives the impression of a second initial appearance. Therefore, she stated that it is the Board's decision not to reinstate Dr. Gilmore's license to practice dentistry at this time. Dr. Kyger stated that the Board would like to see Dr. Gilmore for a subsequent interview at its next meeting in February and suggested that he might consider pursuing some refresher dental education during the interim.

RAM OHIO – PRESENTATION BY ZAC PONSKY

Dr. Kyger announced that the Board would be modifying the agenda and allowing Mr. Zac Ponsky of RAM OHIO to present to the Board. Mr. Ponsky thanked the Board for adjusting their schedule to allow for them to present at The Ohio State University later in the day. He stated that he is not in the healthcare profession but is working toward a statewide initiative to provide care to uninsured, underinsured or who cannot afford deductibles. He stated that this is being modeled after an initiative in Tennessee that provides totally free care over a weekend by all healthcare providers, doctors, nurses, dentists, dental hygienists, social workers, etc. He informed the members that while this event is being modeled after the event in Tennessee, this initiative has many more resources and they are concentrating more on continuity of care. Mr. Ponsky then briefly detailed the involvement of clinics, universities, hospitals and healthcare providers from all areas of the state. He stated that at a similar event in Virginia, they had approximately 1,200 volunteers who treated over 6,000 patients in the two (2) day period. He stressed that the services are provided totally free to the patients and that counseling is provided to guide patients to subsequent treatment facilities. Mr. Ponsky stated that all of the equipment was in place for the event to be held in Cleveland on May 2-3, 2009 and that they were here before the Board to recruit volunteers.

Mr. Ponsky entertained questions from the Board and immediately following informed everyone that more information and an opportunity to volunteer could be found on their website: www.ramohio.org.

Dr. Kyger thanked Mr. Ponsky for his presentation and expressed that the Board members would be sharing his information.

EXECUTIVE DIRECTOR'S REPORT

AMERICAN ASSOCIATION OF DENTAL EXAMINERS

Ms. Reitz reported to the Board members regarding her attendance to the American Association of Dental Examiners (AADE) Executive Council retreat. She stated that she felt anxious to be there due to the resistance of some of the members to an administrator

member. She stated that she was able to actively participate in the meeting itself. She stated that they had a contract for review and consideration for legal services from an attorney who also serves as council for AADE. Ms. Reitz explained that they requested her assistance in review of the contract. She stated that she had made some recommendations in regards to the contract. Further, she was asked to chair the AADE Constitution and Bylaws Committee.

Continuing on, Ms. Reitz informed the Board members that she shared with the Executive Council the memo she had put together regarding a survey on the status of one national examination. She stated that every state except Utah had expressed that they did want to proceed towards one national exam.

Ms. Reitz stated that Dr. Leffler had inquired specifically about the boundaries and prescribing guidelines that the AADE had suggested. She stated that the AADE was considering offering continuing education in these areas that would be an income generator for them, however it could also benefit each individual state, by providing continuing education for licensees and also for disciplinary reasons.

Ms. Reitz concluded by stating that there were some considerations for her serving more than one year and that they would see how this first year went. She stated that their next meeting would be in March in conjunction with the mid-year meeting.

GLENBEIGH CLEVELAND CLINIC FOUNDATION

Ms. Reitz informed the Board that she had met with the Medical Director, the Clinical Director, and the Head of Counseling, among others, at Glenbeigh Cleveland Clinic Foundation. She stated that they were wanting to discuss what the Board wanted/expected from them as a treatment provider. She informed the Board members she was impressed with the program and the services they are able to provide. She also noted that their program was not as expensive as other providers. She informed the Board members that they provided her with additional pamphlets of information to distribute to the members. She stated that Glenbeigh is not always thought of as a provider due to their location and that they were meeting in an attempt to further their relations with the Board.

ADJOURN

Dr. Kyger adjourned the meeting at 3:07 p.m. She stated that the next meeting would be on February 18, 2009.
