Governor John Kasich  
77 South High Street, 30th Floor  
Columbus, Ohio 43215

Dear Governor Kasich:

We are pleased to provide you with the Annual Report of the Ohio State Dental Board (Board). This report summarizes the Board's licensing, enforcement and financial activities for fiscal year 2012.

As appointed public servants, the Board members are charged with protecting Ohio's consumers by ensuring that those who are licensed by the Board meet certain minimum education and training criteria to safely practice in Ohio. The Board must then monitor those licensees to ensure compliance with the laws and rules governing the profession.

The Board has been effective in its job to protect the public through licensing, enforcement and regulation. Further, we are making improvements proactively and as necessary, with patient safety as our primary concern.

The mission of the Ohio State Dental Board, as set forth by the Ohio State Legislature, is to protect the public through licensure, regulation and enforcement. We as state Board members have concerns for the welfare of the citizens of Ohio, who are our patients. We practice under the same rules and regulations that govern all licensees. The Board will continue to evaluate the challenges affecting dentistry with an eye on protection of the public, and respond accordingly.

This past year we have had a number of licensure, regulatory, and enforcement issues come before us.

One matter involved adopting rules to implement our charge with the passing of House Bill 190.

77 S. High Street, 30th Floor  
Columbus, Ohio 43215-6125

HB 190 provides for the creation of an Oral Health Access Supervision Program (OHASP). Any qualifying dentist or dental hygienist wishing to participate in the Program will have to apply to the Board for an OHASP permit, which includes a nominal fee.

Under HB 190, permitted dentists may delegate to those permitted hygienists the ability to perform dental hygiene services when the dentist is not present in facilities such as a health care facility, a comprehensive child development program, a residential facility, a public school, a shelter for victims of domestic violence, a foster home, a nonprofit clinic, etc. The dentist must ensure that the dental hygienist has met certain requirements, and that conditions must be met before such services can be delegated. After the patient is treated under the program, the dental hygienist is required to make every effort to schedule the patient to be seen by a dentist within 90 days.

HB 93 was also passed. This bill required the Board to write rules setting forth requirements for reviewing an Ohio Automated Rx Reporting System (OARRS) report when dentist prescribers prescribe or furnish controlled substances to patients. The legislation also requires dentist prescribers to report certain prescribing/furnishing information to OARRS. Those who are noncompliant will be reported to the Board for further action. The Board's rule in this regard is now in effect.

The Board continues to be challenged with issues relating to various corporate dentistry models and practices, scope of practice issues, and advertising concerns. It has been a busy and challenging year for the Board, and it will continue as we write rules and develop policies to address the ever changing field for which we are privileged to be members.

The goal of the Board is to provide efficient services to our population of licensees as well as to address the needs of Ohio's dental consumers. The Board wants to ensure that only qualified, competent, and ethical practitioners are treating the dental needs of the public.

Governor Kasich

This ultimately results in an obvious benefit to the citizens of Ohio, and further, this promotes the integrity of the profession, for which we should all be proud to contribute in our respective capacities. The Board is constantly moving forward and it anticipates another exciting and complex year ahead.

Respectfully submitted,

THE OHIO STATE DENTAL BOARD

# Ohio State Dental Board Annual Report - FY 2012

---

The Ohio State Dental Board (Board) is the agency responsible for examining and licensing dentists, dental hygienists, and dental assistant radiographers for practice in Ohio. In addition, the Board administers and enforces Chapter 4715. of the Ohio Revised Code and Chapter 4715 of the Ohio Administrative Code and adopts rules establishing standards for the safe practice of dentistry and dental hygiene. The Board is responsible for acting on complaints through investigations, inquiries and inspections, and holding adjudication hearings pursuant to Ohio Revised Code Chapter 119. The Board is also responsible for monitoring continuing education compliance of its licensees. The Board keeps a register of all licensees and all disciplinary action taken against licensees

The Board is self-sustaining through means of fees derived from applications for initial licensure, renewal fees, late fines and other miscellaneous sources. The Board is fully funded through 4K9 operating fund for professional licensing boards. Fees generated in excess of the Board's budget remain part of this fund. The State Controlling Board must approve any adjustments in spending authority or funding allotments.
