Deputy Director Kochheiser began the Enforcement Update by informing the Board that there are two (2) cases pending hearing of which both have been scheduled. He stated that there was one (1) case, Dr. Kenneth Polke, pending the Hearing Examiners Report and Recommendation which the members would be reviewing shortly. Mr. Kochheiser stated that there were forty-nine (49) licensees and certificate holders under suspension, and one-hundred twenty (120) active cases. He said that there were no new referrals to and no licensees actively participating in QUIP. He informed the members that there were sixty-six (66) cases which have been investigated and reviewed by the Board Secretaries and are recommended to be closed with four (4) warning letters having

been issued. Mr. Kochheiser noted that there are twenty-seven (27) licensees currently on probation. He indicated that there are fifty-three (53) cases that have been open for longer than 90 days as noted in the charts in the Board Notebooks. He informed the members that during the last meeting in June there had been questions about the "Cases over 90 Days by Type", specifically the cases that were listed as Pending Notice/CA. Mr. Kochheiser explained that of the 21 cases listed in that category, eight (8) cases have already resulted in Notices of Opportunity for Hearing being issued previously or Consent Agreements that have already been signed pending approval at this meeting. He indicated that he would be developing better metrics for the report for the September meeting.

Due to the requirement in Chapter 4715.03(B) of the Ohio Revised Code, that "A concurrence of a majority of the members of the board shall be required to... (6) Dismiss any complaint filed with the board[,]" Deputy Director Kochheiser reviewed the cases to be closed with the Board.

Report and Recommendations

In the Matter of Kenneth J. Polke, D.D.S.

Director Kamdar turned the meeting over to Deputy Director Kochheiser to conduct the Report and Recommendations. Mr. Kochheiser announced that the Board would now consider the Attorney Hearing Examiner's Report and Recommendation in the matter of Kenneth J. Polke, D.D.S. that was filed by Attorney Hearing Examiner Lawrence D. Pratt, Esq., on June 20, 2018.

Mr. Kochheiser asked for the record if each member of the Board had an opportunity to review the Report and Recommendation, transcript, exhibits, and objections in the matter of Kenneth J. Polke, D.D.S. that were made available on the Board Member Portal?

Roll call:

- Dr. Anderson – Yes
- Dr. Bauer – Yes
- Dr. Bean – Yes
- Dr. Das – Yes
- Dr. Guttman – Yes
- Ms. Intihar – Yes
- Ms. Johnston – Yes
- Dr. Krob – Yes
- Dr. Quereshy – Yes
- Ms. Scaramucci – Yes
- Dr. Subramanian – Yes
- Dr. Zucker – Yes

Mr. Kochheiser informed the Board that Ms. Bockbrader had requested to present oral argument under Revised Code 4715.039 and that the Secretaries had approved. Dr. Polke did not file a request to present oral argument and was not present for the meeting.

Mr. Kochheiser stated that the Board's minutes serve as the official record of the proceedings.

Katherine Bockbrader, Esq.

Ms. Bockbrader stated that because Dr. Polke was not making a presentation, she would be brief and refer the Board to her written closing argument. Ms. Bockbrader referred to the evidence provided from the state of Colorado regarding Dr. Polke's discipline by that state's board and stated that the question for this Board is what sanctions should be imposed based on that evidence. Ms. Bockbrader cautioned the members regarding the first Colorado discipline from 1998 as it was based on discipline in Ohio and Dr. Polke did not commit any additional misconduct that led to that agreement. Therefore, she would not recommend it as a consideration for any additional discipline in Ohio. However, Ms. Bockbrader stated that Colorado took significant disciplinary action against Dr. Polke based on serious allegations of failing to provide treatment that meets the standard of care. In the Report and Recommendation, the Hearing Examiner summarized this evidence. She stated that throughout the hearing and subsequent filings, Dr. Polke took no responsibility for the allegations against him. Dr. Polke indicated that he did not need any improvement in his practice and, in fact, he commented that he was one of the best dentists in the country.

Ms. Bockbrader explained to the members that there might be cases before them where someone has been disciplined and they are remediable. Those individuals may be placed on suspension, take continuing education, improve themselves and come back. However, she stated that this is not one of those cases.

Concluding, Ms. Bockbrader stated that it was her opinion that the Hearing Examiner's recommendation is appropriate and that Dr. Polke's license should be revoked. However, if the Board feels that Dr. Polke is remediable, she would recommend significant suspension time with significant remedial education.

Quasi-Judicial Deliberations

Motion by Dr. Zucker, second by Ms. Johnston, to recess for the purpose of conducting quasi-judicial deliberations in the matter of Kenneth J. Polke, D.D.S., pursuant to Ohio Revised Code 119. and to reconvene in open session following deliberations.

Roll call vote: Dr. Anderson – Yes
Dr. Bauer – Yes
Dr. Bean – Yes
Dr. Das – Yes
Dr. Guttman – Yes
Ms. Intihar – Yes
Ms. Johnston – Yes
Dr. Krob – Yes
Dr. Quereshy – Yes
Ms. Scaramucci – Yes
Dr. Subramanian – Yes
Dr. Zucker – Yes

Motion carried unanimously.

Mr. Kochheiser indicated that only Board members would remain in the room for the deliberations. He stated that members of the public, SIP members who reviewed the investigation of this case, Assistant Section Chief Ms. Bockbrader, and other staff must wait outside. He then requested all guests and staff to leave the meeting and to take all personal items, including briefcases, purses, cell phones, tablets, etc. with them when exiting the room. He stated that they would be invited back in upon conclusion of the deliberations for announcement of a decision in this matter.

Open Session

The Board resumed the open session at approximately 1:56 p.m.

Mr. Kochheiser stated, "Let the record reflect that Dr. Guttman and Dr. Subramanian were the Secretaries in this matter and that they were not present nor did they participate in the deliberations in this matter. Therefore, they will abstain from final vote."

Decision in the Matter of Kenneth J. Polke, D.D.S.

Motion by Dr. Zucker, second by Dr. Anderson, that in the matter of Kenneth J. Polke, D.D.S., the Board accept all of the Findings of Fact and Conclusions of Law and modify the Recommendation in the Hearing Examiner's Report and Recommendation and that the Board permanently revoke Dr. Kenneth Polke's license.

Dr. Zucker stated that the rationale for the modification is that the Board in its expertise finds that due to the severity and multitude of the violations as presented by the evidence, permanent revocation will adequately protect the public.

Motion carried. Dr. Guttman and Dr. Subramanian abstained.

Licensure

Samantha Slater, Licensing Manager, had prepared a report of the licenses, certificates, and registrations issued since the previous Board meeting in June.

Motion by Dr. Quereshy, second by Dr. Zucker, to approve all licenses, registrations, and certifications as listed that have been issued since the June Board meeting.

Discussion followed wherein Ms. Scaramucci asked whether she should abstain from voting due to knowing several students from her coronal polishing classes at the University of Cincinnati. Ms. Bockbrader recommended that she should abstain from the vote. Dr. Bean, Dr. Quereshy, and Dr. Subramanian also asked whether they too should abstain from voting for these candidates. Ms. Bockbrader indicated that they should abstain from voting on the licenses of any student that they may know or have instructed.

Director Kamdar suggested that the Board members could select the names of the individual applicants to be held out for separate vote. This option was discussed briefly but determined to be impractical due to the educators knowing too many of the applicants. Several other suggestions were made including the possibility of leaving the names of the individuals out of the Licensure Report or asking the Ethics Commission for a formal opinion in the matter. Director Kamdar concluded the discussion by indicating the Board should move forward with the voting today and they would have possible resolutions by the next meeting in September. There was no objection from the Board members on this approach.

Motion carried. Ms. Scaramucci abstained.

Motion carried unanimously.

Motion by Ms. Johnston, second by Dr. Zucker, to remove Dr. Lerg's application for consideration of a conscious sedation permit and approve all other general anesthesia and conscious sedation permits as listed.

Dr. Subramanian explained that an incident had occurred regarding a medically compromised patient of Dr. Lerg that did not go well, resulting in a Consent Agreement. It was suggested that this matter should be forwarded to the Supervisory Investigative Panel for further review.

- #16 Review and update statute, rules and policies (ongoing)
- #17 Elevate awareness Ohio's opioid epidemic and reduce overprescribing of opioids and benzodiazepines (met AND ongoing)

Director Kamdar thanked Ms. Johnston for her leadership regarding the Policies. He reminded the Board members that are not on the Policy/Scope of Practice Committee to perform due diligence in preparing for changes to the policies, position statements, and best practices guidelines by reviewing the documents in the Board Members Portal and to stay aware of the changes that are being made. He stated that if they have any suggestions or recommendations regarding some of the activities, to make sure that they address the matter with the chair of the committee.

Motion by Dr. Subramanian, second by Dr. Zucker, to approve the Policy/Scope of Practice Committee report as presented.

Motion carried unanimously.

Discussion on Potential Amendments to Dental Specialties Rules

Director Kamdar confirmed that all members of the Board had received the most current version of Option B and Option D of the rules regarding dental specialty and advertising. Noting that all members had received the current version of the rule options, Director Kamdar explained the process for the discussions, any recommended amendments to the options, and the voting process. He then explained the rule review process and potential timeline for the rules to become effective.

Director Kamdar explained that once the Board members vote and select one of the rule options, the proposed rule would begin the state's rule review process. He then reviewed the projected timeline of the rule approval process.

He stated that this was a projected timeline that could be subject to change as much of the rule review process is outside of the Board's control. Director Kamdar stated that the members would have at least four opportunities

to review the rules again, possibly at the September 12, November 7, December 5, and February 2019 meetings. Director Kamdar stated that some of the members had asked a question about the rules the Board had temporarily suspended. He explained that after the proposed amendment becomes effective, the stay will no longer be in effect. Director Kamdar told the members that he would distribute a printed version of the timeline in the next few days.

Director Kamdar then asked if there was a motion to amend Option B as specified in the Board meeting materials distributed for this meeting? Noting that there were no comments he moved on.

Director Kamdar then asked if there was a motion to amend Option D as specified in the Board meeting materials distributed for this meeting?

Motion by Dr. Bauer to amend 4715-13-05 to strike items C and item D which read as follows:

“(C) A dentist who is not recognized as a specialist under paragraph (B) of rule 4715-5-04 of the Administrative Code may advertise truthful certification, diplomate status or other similar credentials from a bona fide national organization which grants credentials based upon the dentist's postgraduate education, training, and experience, and an examination based upon psychometric principles, if the following disclaimer appears in a reasonably clear and visible manner compared to the announcement of the credential: “[insert name of the organization] does not meet the specialty recognition requirements of the Ohio State Dental Board”. Upon request by the board or a member of the public, the licensed dentist must identify the specific training completed and the organization that granted the credential.

(D) A dentist who practices general dentistry and advertises performance of a specialty procedure but is not recognized as a specialist pursuant to Ohio Revised Code 4715-5-04(B) must clearly state in advertising, and/or public promotions, that he or she is a general dentist by stating “General Dentistry” or “General Dentist” in print larger and/or bolder and noticeably more prominent than any other area of practice or service advertised.”

Dr. Bauer stated that he did not want to include the requirement that a dentist who advertises that they are a diplomate of a boards that board is not recognized by the State of Ohio must specifically spell that out every time the credential is mentioned.

Ms. Johnston asked for clarification and Dr. Bauer explained that he believes that dentists should be able to advertise as a diplomate without explanation as to the status of the accrediting organization.

Dr. Zucker suggested that Dr. Bauer make two separate motions, one for each paragraph of the rule.

Ms. Scaramucci clarified that if it was Dr. Bauer's intent to only remove the requirement for identification of the accrediting organization, then perhaps he should consider deleting everything after the word “principles” in paragraph (C).

Motion by Dr. Bauer, second by Dr. Zucker, to amend rule 4715-13-05 to strike language in paragraph (C) following the word “principles.”

Dr. Zucker asked Dr. Bauer if he meant to delete the last sentence in that paragraph which states: “Upon request by the board or a member of the public, the licensed dentist must identify the specific training completed and the organization that granted the credential.” Dr. Zucker stated that if a dentist is advertising that they are a diplomate of an organization, the Board should have the ability to ask if that credential exists.

Dr. Bauer stated that he would not be opposed to leaving that sentence in but eliminating the language before it.

Ms. Scaramucci asked if this language would provide that such a dentist can still advertise as a diplomate or a specialist. Dr. Bauer stated that the dentist could not say they were a specialist, just a diplomate of the organization of which they were accredited.

Dr. Zucker stated that what this amendment boiled down to was putting the onus on the general public or the dental consumer to understand the difference between the words specialist and diplomate. He suggested that they step back from the profession and think of themselves as a dental patient. And, as a dental patient, knowing nothing about dentistry, would you understand the difference between a diplomate and a specialist? If you, as the general public, would not understand that or the public would not understand the difference, then the Board as a body needs to somehow educate the public on the difference. Dr. Zucker stated that this becomes a slippery slope of creating a gray area to the public and while, not opposed to the suggestion, he was unsure if it was the right approach.

Dr. Quereshy stated that when you tell someone that you are board certified, that certification may be by examination, whether oral, and, written, or sometimes both. Therein lies the difference because they do take a clinical and oral examination and the level of education that is required is different based on the standards that the Department of Education is setting.

Director Kamdar asked if any other members wished to comment on the proposed amendment.

Director Kamdar clarified for the members that there was a minor amendment to rule 4715-13-05 which was proposed by Dr. Bauer and seconded by Dr. Zucker removing language in paragraph (C) that states, "if the following disclaimer appears in a reasonably clear and visible manner compared to the announcement of the credential: "[insert name of the organization] does not meet the specialty recognition requirements of the Ohio State Dental Board." He then invited members for any other comments or discussion.

Dr. Krob asked Dr. Bauer what his rationale was for proposing to remove the language. Dr. Bauer explained that a line needs to be drawn when the Board considers the need to limit specialty advertising. He stated that it is his opinion that the dentists who have put the time and effort into learning skills through unaccredited organizations should have the right to promote these skills, which still have value, even if it does not reach the threshold that would permit the Board to recognize it as a specialty.

Ms. Johnston clarified that the members were now voting on an amendment.

Roll call vote: Dr. Anderson – No vote.
Dr. Bauer – Yes
Dr. Bean – No
Dr. Das – No
Dr. Ginder – Absent
Dr. Guttman – No
Ms. Intihar – No
Ms. Johnston – Yes
Dr. Krob – Yes
Dr. Quereshy – No
Ms. Scaramucci – Yes
Dr. Subramanian – No
Dr. Zucker – No

Voting resulted in seven (7) “no”, four (4) “yes”, one (1) absent and one (1) “no vote”. Motion defeated.

Director Kamdar inquired as to whether there were any other motions to be made regarding Option D. Hearing none, he moved the meeting forward.

Motion by Ms. Johnston, second by Dr. Subramanian, to select Option B as specified in the Board meeting material distributed for this meeting and including any amendments made to the option today so as to advance it through the state’s rule review and approval process.

Ms. Johnston explained that she proposed acceptance of Option B because this option presents no harm to the public. She then stated that as Board members they must do what is best for the public, but they also must be good stewards of taxpayer funds. She stated that Iowa has very specific language in their rules to recognize both ADA and ABDS specialties which still protects the public and other states will likely pass it as well.

Ms. Johnston stated that the ABDS specialties have been highly vetted and, as was presented by the dental anesthesiologist who presented to the Board, their testing standards are very high. She stated that their requirements for the number of implants, for example to become a diplomate, is very high, much higher than any other specialties that are doing the implants. ABDS will also vet future specialty applicants. This is a good and fair option, fair to everybody, it does not hurt anybody, it does not hurt the public, and it is being a good steward of the taxpayer funds.

Dr. Quereshy stated that when he participates in CE courses, certificates are given and there is no sort of examination following the CE. He stated that he does not believe that CE itself can be measured as part of an educational process if you take a certain number of hours of CE that you can call yourself a specialist, the same as someone who has taken advanced education in that area. He stated that CE courses are not vetted in terms of participant inclusion and there are no requirements to pass. You can be a general dentist, apply, pay a fee, and take your CE course. Whereas, training programs for specialties have a full interview process, a full vetting process of an applicant based on their past performances, the programs are 2-3 years full-time, and have a full process for allowing the participants to be included in their training program. He stated that there is an area of uncertainty presented to the public when someone can just take CE courses and call themselves a specialist.

Ms. Johnston stated that this is not the same and that there are certain requirements, where they have written tests, they have practical tests, and it is not like a regular CE course that you just go and get a certificate. She stated that these CE courses are very different but that they use this terminology because they were not allowed to get into the CODA-accreditation process.

Dr. Subramanian disagreed and stated that there are implant dentistry programs which are given in CODA-approved schools and have 2-year programs wherein the whole idea of going to a CODA program is not just doing the clinical cases. He stated that you want to be able to appreciate the literature, the science behind what you do, why you do it, how you do it, and the ability to read that literature and be able to discern what it means. While some people who take these CE programs are gifted clinicians, there is no vetting system. Anybody who is willing to pay the \$30,000 entry fee is guaranteed a spot into that CE program. Further, not all CE programs are the same as he has personally had the experience of these CE programs through AAID.

Dr. Zucker stated that protecting the public from bad practitioners is the Board’s job. He stated that he believes that one of the greatest ways that the entire dental educational system protects the public from bad practitioners is through a stringent application acceptance process. Dentists have to go through it to get into dental school, a dentist has to be at the top of their class to get into dental school, then in the top of their class in dental school to

get into a specialty program, and every step of the way they are picking the best of the best. He stated that when you get to a point where you are going to a specialist in the current system, the Board assures the public is protected because the system itself has essentially weeded out the good from the bad practitioners. Dr. Zucker stated that Option B removes one of those barriers. It removes one of those sorting mechanisms and it allows someone in who may not be as competent of a clinician into a specialty program and then there is nothing stopping them other than their own financial ability. He stated this may be a generalization but that it does open a back door. He stated that he does not believe the Board is protecting the public by opening a back door to specialty designation that money opens in education. He believes that by removing the selection process, they were removing the barrier and that barrier is there to protect the public.

Ms. Johnston stated that this ignores the fact that they have to pass the test. Just because they get into the program did not mean that they were going to be recognized as a diplomate.

Dr. Zucker questioned how many applicants to these types of programs have been denied?

Ms. Johnston indicated that statistically she did not know but that they have their own vetting process or procedures they say must be in order to be granted this status.

Dr. Subramanian noted that when you have a powerful organization funded by four (4) different entities, there is a vested interest in what they want to do.

Dr. Guttman said that she believes that the public is confused about the education which was evident in the surveys. She said that as the Dental Board, the Board is here to resolve a problem for the state. The Board meets eight (8) times a year, but the Board is not an accrediting agency. Therefore, Dr. Guttman said that the Board has to rely on the accrediting bodies such the Department of Education and if something else comes along then that should be how they need to be recognized and not by the dental board.

Dr. Guttman commented that she believes that it is the impression of the public that a specialist is the best in their field and the Board has to rely on an accrediting bodies to determine what is acceptable.

Ms. Johnston commented that there is only one accrediting agency and so that eliminates a lot of options. There is no competition.

Dr. Zucker stated that we are not only limited to just one accrediting body.

Director Kamdar asked if any other members wished to comment. Hearing none, he called for a roll call vote.

Roll call vote: Dr. Anderson – No vote.
Dr. Bauer – No
Dr. Bean – No
Dr. Das – No
Dr. Ginder – Absent
Dr. Guttman – No
Ms. Intihar – No
Ms. Johnston – Yes
Dr. Krob - No
Dr. Quereshy – No
Ms. Scaramucci – No
Dr. Subramanian – No

Dr. Zucker – No

Motion defeated.

Director Kamdar asked if there were any other motions for consideration.

Motion by Dr. Subramanian, second by Dr. Bean, to select Option D as specified in the Board meeting material distributed for this meeting and including any amendments made to the option today so as to advance it through the state's rule review and approval process.

Roll call vote: Dr. Anderson – No vote.
Dr. Bauer – Yes
Dr. Bean – Yes
Dr. Das – Yes
Dr. Ginder – Absent
Dr. Guttman – Yes
Ms. Intihar – Yes
Ms. Johnston – No
Dr. Krob - Yes
Dr. Quereshy – Yes
Ms. Scaramucci – Yes
Dr. Subramanian – Yes
Dr. Zucker – Yes

Motion carried.

Director Kamdar stated that this concludes the discussion on specialty designation and advertising. He stated that the Board will be forwarding Option D to CSI Anti-trust office for their review and feedback.

Executive Updates

President's Update

President Das welcomed the newest member of the Board; Ms. Intihar and Ms. Scaramucci. He stated that he looked forward to leveraging their skills and knowledge to help serve the dental consumers of Ohio and they will be assigned to committees very soon.

President Das then stated that everyone was aware the opioid epidemic is far from over. We must continue to focus our efforts in informing our fellow practitioners and the public. Please feel free to lend your support as we work with academics to provide education experiences that will eventually be tied to the license renewal process. This is a necessary step for us toward eliminating the opioid epidemic.

Executive Director's Update

Welcome New Board Members

Director Kamdar welcomed Ms. Scaramucci and Ms. Intihar stating that we were excited to have them and appreciate the hard work and reading they have done over the past few weeks in preparation for the meeting today.

Dr. Michael Ginder

Director Kamdar stated that Dr. Ginder was going to try to come to the meeting that day. Unfortunately, he was unable to make it. He requested that they keep him in their thoughts and prayers as he recuperates from his illness.

Strategic Priorities

Director Kamdar stated that they have not discussed strategic priorities in a while. He stated that he is going to have Mr. Russell review all the priorities with the chairs of each of the committees to determine where the Board stands on the current priorities. He stated that they may consider holding a Strategic Planning meeting next year once the new administration is in place so as to incorporate any new initiatives.

Statutory Reduction of 10%

Director Kamdar spoke to the members of the goal of 10% reduction in statute and rules that they were all aware of. It is a self-directed goal in reducing our laws and rules by 10%. He mentioned his article in the most recent *e-bulletin* which speaks to this initiative. Director Kamdar asked the members to send Deputy Director Kochheiser any suggestions in this regard by August 31, 2018. Those suggestions will be reviewed with the omnibus workgroup and help move towards advancement of the omnibus bill.

Opioid Training

Director Kamdar stated that President Das had already spoken to them regarding the opioid epidemic and he just wanted to add that we do not want to lose sight of the fact that we will come up with an opioid training for prescribers that will be tied into the license renewal process. We will be inviting the Ohio Dental Association to assist in this regard. This is not punitive, but it is for the protection of the public and prescribers.

Anything for the Good of the Board

2019 Board Meeting Schedule

Director Kamdar indicated that Board staff had prepared a revised draft calendar of Board meeting dates for 2019. He indicated that the revised dates take into consideration that the Ohio Dental Association has scheduled their annual meeting in October instead of September for 2019. Director Kamdar indicated that the members were polled regarding the revised schedule and that those who have not responded should contact Ms. Franks by end-of-day Friday regarding availability. Once she has compiled the information the new schedule will be forwarded to the members and will be posted on the Board website as well.

Director Kamdar inquired as to whether any of the Board members had any other items to address under "Anything for the Good of the Board". He noted that there were no additional items to address.

Dear Mr. Kamdar,

I recently talked to you regarding a position as a CDCA dental board examiner. As per our conversation, I am enclosing my Curriculum Vitae and my Resume. I have discussed this position with Nick Huston, who was my dental board examiner in 1983. We reconnected through a mutual acquaintance, and he has been a strong mentor in my decision to pursue this position.

My current position at The Ohio State College of Dentistry as part time assistant professor of oral and maxillofacial pathology and radiology has fueled my desire to attain this position. I work with both senior dental and hygiene students, preparing their radiographs for the CDCA boards, putting the images in a "local view" computer folder so the best image quality is maintained and I advise the students as to the lesion(s) they are contemplating or the quadrants they intend to scale for the exam.

I want to thank you for your consideration for the CDCA examiner position, and I look forward to hearing from you soon.

Best regards,
