Public Comment/Presentation/Correspondence
C.E. Broker – Presentation by Catherine Como
President Subramanian stated that the Board has been researching continuing education tracking opportunities and Ms. Catherine Como of C.E. Broker was before the Board to present information on C.E. Broker’s software and its capabilities. President Subramanian welcomed Ms. Como and introduced her to the Board.

Ms. Como thanked the Board for the opportunity to present and provided a brief background on C.E. Broker’s history with the Board, recent growth and their work with the eLicensing program in Ohio. She explained that in 2016 the Board had performed a comparison of continuing education tracking software and voted unanimously to utilize C.E. Broker due to their longevity, tech support, work with other state dental boards, and their previous experience with the eLicense system in Ohio. She stated that the timing had not been right to collaborate with the Board on launching the use of C.E. Broker to Ohio licensees and that the time is right to revisit a possible collaboration.

Ms. Como stated that C.E. Broker partners with regulatory boards and licensees with a united platform that is beneficial to both. She stated that their program is a CE compliance engine tailored and customized for each individual state and their professions that simplifies the CE process and makes it more manageable for licensees, as well as regulatory boards for auditing and compliance purposes all at no cost to the regulatory boards or their stakeholders. She explained that they support over 8,000 continuing education providers that report completion data directly to their system which lessens the need for self-reporting for currently over three (3) million licensees. Ms. Como explained that C.E. Broker ensures privacy and security by complying with federal standards and never collects or shares non-continuing education data.

Ms. Como went on to explain the benefits of C.E. Broker for Ohio licensees but explained the bigger benefit to the Board was the ability of Board staff to check and review continuing education compliance status digitally, thus eliminating the paper process. C.E. Broker software allows licensing boards the ability to generate their own reports which is a solution that aims to empower staff with the equipment and tools to manage options for auditing. She commented that C.E. Broker has already customized their program with Ohio rules and regulations for licensees and continuing education providers. She concluded by stating that quality is their primary focus and that their mobile application is their most popular feature.

A brief question and answer period followed and then President Subramanian thanked Ms. Como for presenting to the Board.

Director Kamdar indicated that we could move forward in a joint collaboration with C.E. Broker, unless the Board felt the need to perform yet another comparison and vote again. President Subramanian noted that there were no objections from the Board members to move forward with C.E. Broker.

Executive Updates
President’s Update
C.E. Broker Presentation
President Subramanian stated that he wished to thank Ms. Como from CE Broker for taking the time to come and talk to the Board today. He would ask that his fellow Board members reach out with any questions or clarifications regarding their software.

Continued Assistance During COVID-19 Pandemic
President Subramanian stated that we are almost coming to the end of another COVID-19-gloom year. Life has not been easy. But as a part of the healthcare team, dentists have, for the most part, done their duty in promoting awareness, being cautious, using appropriate PPEs and strictly following guidelines. He stated that they have also extended a helping hand by donating supplies and volunteering in vaccinating the public and all this to better serve and better protect our patients and citizens.

Ohio Dental Association Annual Meeting – Collaboration and Recognition
President Subramanian stated that he wished to update the Board members about the Ohio Dental Association (ODA) Annual Session meeting that was held last month. He stated that it was very well attended with good continuing education offerings. A few members of the Board along with the Director Kamdar, Deputy Director Cellier and Deputy Director Russell all attended the House of Delegates. The Leadership and Executive Committee of the ODA expressed their gratitude to all the Board members for working with them to help re-open practices following the pandemic shutdown, as well as our continued effort in working with them towards a common goal of protecting the patient and improving access to care. President Subramanian was proud to announce that the ODA at the Callahan Memorial awarded the ODA Pin of Special Service to Dr. Purnima Kumar for all her contributions towards the COVID pandemic for the research, publications and the continuing education provided.

In-person Board and Committee Meetings
President Subramanian commented that as we transition slowly but surely towards what we could optimistically call normalization again, he would like to remind the members of the Board that the upcoming meetings will be in person and not virtual. He stated that they also hope to go back to scheduling committee meetings in the immediate future.
Education Committee – Dental Assistant Examinations
President Subramanian shared a special thanks to the Education committee as they have worked tirelessly over the past few months to identify agencies that could help graduating dental assistant students get their dental assisting certifications which would allow them to apply for radiographer certificates, as well as move forward in their education toward expanded function dental assisting and/or coronal polishing certificates. He stated that after deliberation, House Bill 166 has included American Medical Technologists as an accepted agency to administer a dental assistant examination and ease their pathway to licensing in Ohio. He stated that this will greatly help the students and also the clinicians who are desperate to recruit more assistants. This is a win-win for all concerned and will benefit the citizens of the state.

Opioid Epidemic
President Subramanian asked the members to please not forget about the opioid epidemic. Let us continue the good work we have done and make every effort to deliver a bigger impact to contain the epidemic.
